

NJ Design

NJ Design is an all-in-one stop for everything about me, Noah Jacobs, as both a professional seeking employment and an artist looking to share his creative works

NJ Design is a hub for all information about me. It will have a section for general information about myself like my hobbies and what inspires me. It will also have a place for my professional resume where my education, qualifications, and skills will be listed. Lastly, there will be a section where some of my work will be displayed. Many of it will be professional work made for the business world but there will also be some leisure projects that will display my creative ability.

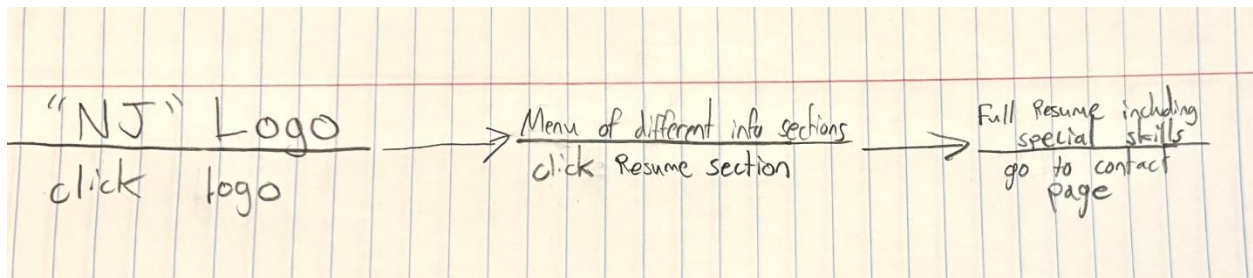

Personas

1. David – UI manager looking for new employees
2. Emme – Design student looking for inspiration
3. Lisa – Distant Aunt looking to explore her nephew's work

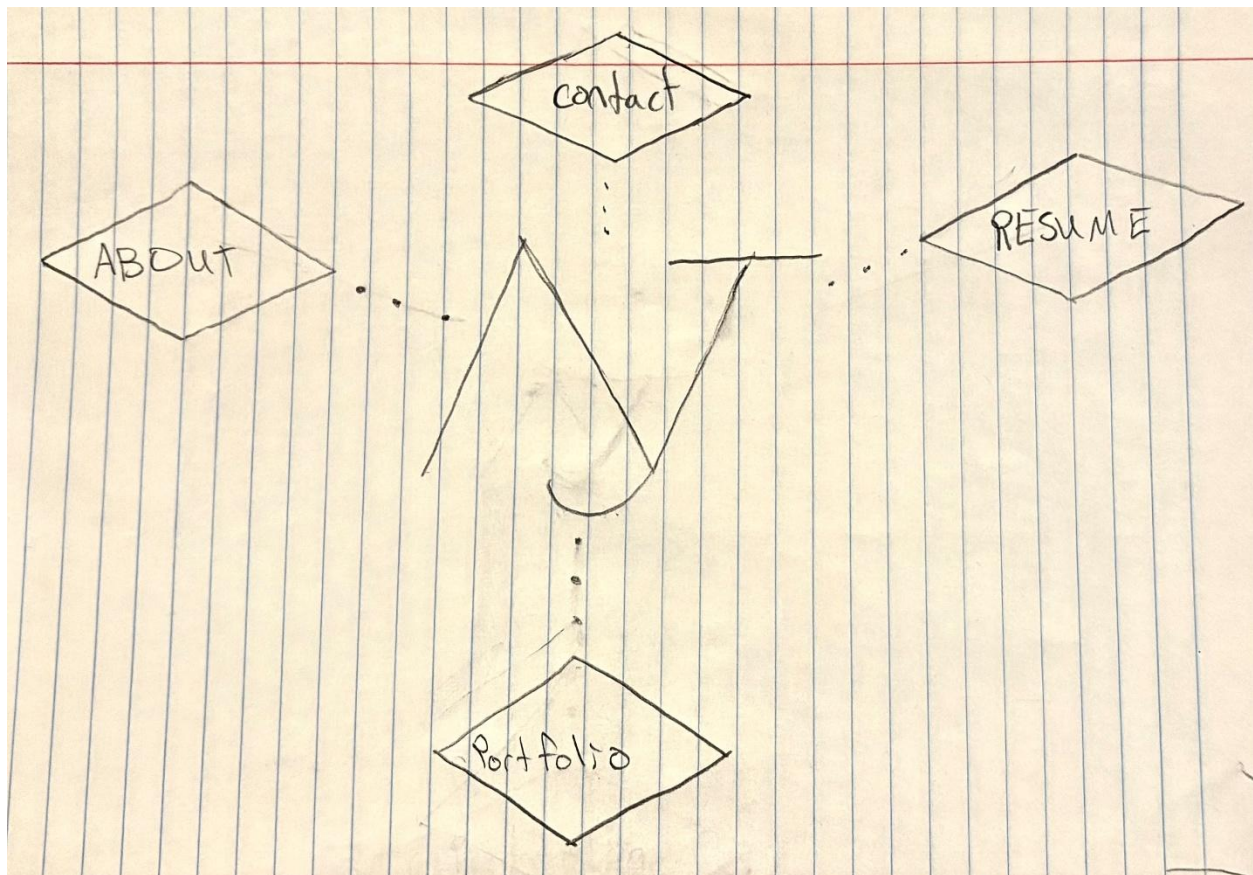

Comps

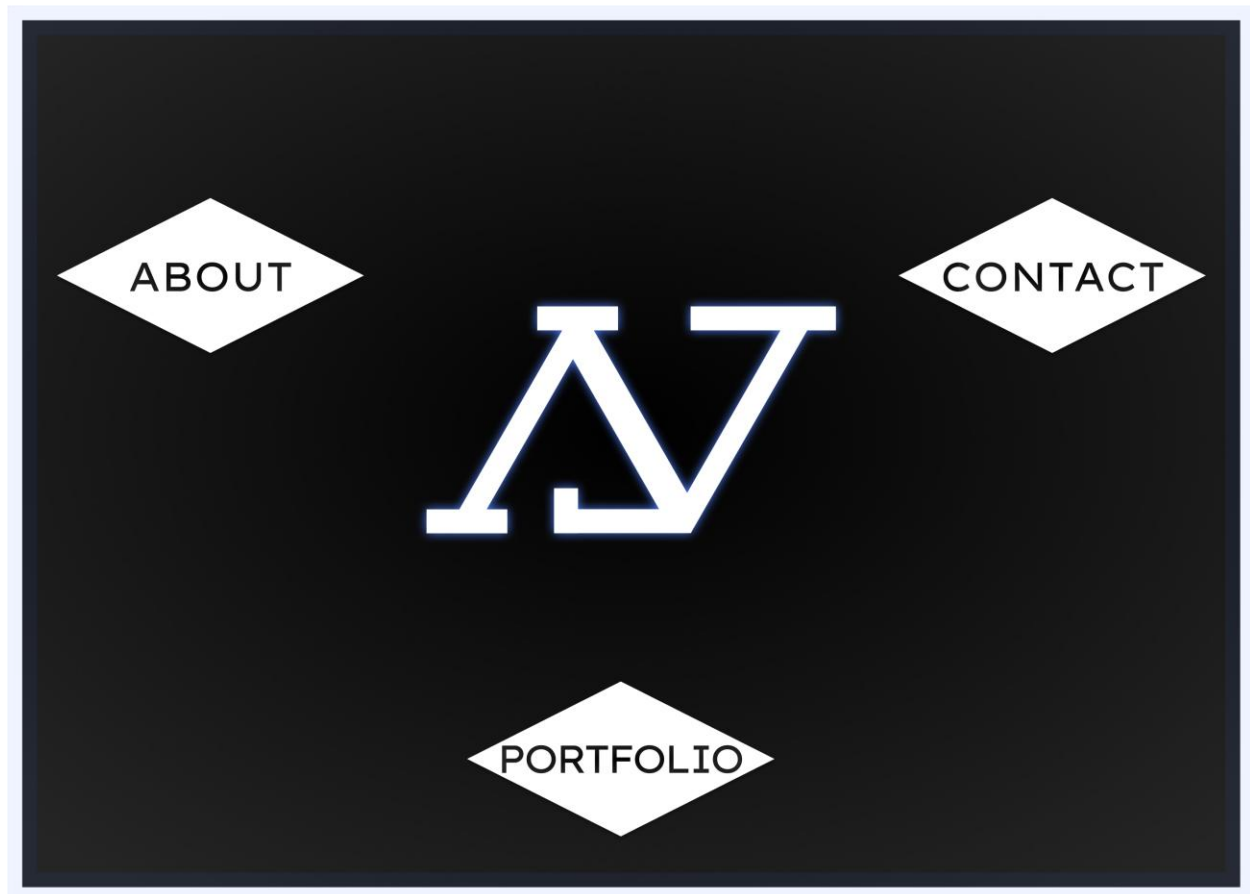

1. Prezi (Presentation)
2. Will Patterson (<https://www.willpaterson.design/>)

3. Elliotisacoolguy (<https://elliorthasacoolstore.com/>)

-getting an employer to reach out in regards to job opportunities

-decided to scrap the expanding menu idea and make the main page very simple
